Brigadier General Joseph J. Cody, Jr.
USAF
Air Force Systems Command
United States Air Force
Andrews Air Force Base
Washington, D. C. 20331

Dear General Cody:

I have your letter of this week
and the AFSC Report for 1964. It serves
to remind me of the broad spectrum of
activities you are pursuing, and the rapid
technology you are creating. It also re-
minds me of my ten years' pleasant associa-
tion with AFSC and its personnel.

Sincerely,

Albert D. Wheelon
Deputy Director

REPLY TO
ATTN OF: SCGC

SUBJECT: AFSC Highlights Report

DD/ST# 10/10/64

TO: Dr. Albert D. Wheelton
Deputy Director for Science and Technology
CIA
2430 E. Street, NW
Washington 25, DC

Dear Dr. Wheelton

1. For the past several years the Command has submitted a year-end report to the Chief of Staff highlighting the major accomplishments of the Systems Command during the calendar year. As was done last year, this record has been published in an unclassified form to describe the breadth and nature of the AFSC mission and capabilities.
2. Limited distribution is being made outside the Command to those individuals sharing an interest in the record achieved in 1964 in the development and acquisition of weapon and support systems for the Air Force. A copy of our 1964 report is attached for your information and reference.

Sincerely

JOSEPH J. CODY JR.
Brigadier General, USAF
Chief of Staff
